

RAIL-&-STILE

HOME FURNISHINGS STUDIO

Rail & Stile Joins Hands with The Green Chair Project for the Annual “Chairity” Event

A Collaboration Merging Compassion with Exquisite Design

RALEIGH, NC – September 2023 – [Rail & Stile](#), a distinguished home furnishings and lacquer studio showcased its solidarity with the Raleigh community and designers by lending its lacquer designs and dedicated support to The Green Chair Project’s esteemed 2023 Chairity fundraiser.

Earning national acclaim for its lacquer services, Rail & Stile’s collaboration with The Green Chair Project, a prominent nonprofit organization, signifies a union of shared visions and values beyond this singular event. The organization’s altruistic mission is to supply vital furnishings to individuals overcoming homelessness, crisis, or disasters, achieved through the resale of generously donated furnishings.

Further deepening their collaboration, any piece purchased from The Green Chair Project and brought to Rail & Stile is eligible for a special discount on lacquer services, symbolizing the continual commitment of both entities to their shared mission and to the community.

The Green Chair Project’s flagship fundraiser, Chairity, is renowned for bringing together an exceptional roster of designers who lend their talents to reinvent chairs and create room vignettes, showcasing their designs. Attendees of the event had the privilege of mingling with the brilliant minds behind the living spaces and chairs on display, all of which were available for purchase supporting the mission of the non-profit.

Rail & Stile extended its expertise by offering complimentary premium services for one piece per vignette. By closely collaborating with the designers, Rail & Stile helped in actualizing the diverse visions for older pieces, giving them a renewed essence and purpose. This sponsorship symbolizes Rail & Stile’s unwavering commitment to fostering sustainability, innovative design, and community service.

The event featured an awards ceremony, where designers Jaime Meares and Dustin Slemp received accolades for the Best Re-Imagined Piece—an armoire that was creatively repurposed as a Dry Bar with the help of the Rail and Stile. Kelly Cromwell, co-founder of Rail & Stile, stated, “It’s always a delight to work alongside designers like Jamie and Dustin who push creative boundaries. When we heard about their vision for the armoire, we could not wait to get started as we love being a resource for those interested in reimagining the possibilities of design.”
